Firm Up Your **Foundational BA Skills**

FOBA™ takes you through a project in a simulated enterprise environment.

You will also earn 36 PD/CDUs to help you meet the application and/or renewal requirements for your IIBA certification.

This is a hands-on project-based course where you'll produce the core BA deliverables your team needs to enhance an existing digital product in an enterprise environment.

66 This course is a must!

For business analysts who thrive on problem-solving and working more effectively - this course is a must! The core framework can immediately be applied to real-time projects.

As an experienced analyst who was looking for a worthwhile IIBA re-certification opportunity, I found that the FOBA curriculum not only refreshed my technical basics – but delivered so much more.

What truly set this course apart was Emal's carefully crafted content, agenda, and presentation – the result of years of IT consulting experience and a passion for sharing his knowledge and insights with other BAs.

The class is practical, interactive, and provides a unique synthesis of components in a logical framework transferable to many types of work projects from small to enterprise level. Every session was engaging and worthwhile - a solid investment

An added bonus was also having access to any updated course material/career resources that are continually being developed by Emal and Danielle. What a truly supportive platform and community.

66 FOBA goes beyond the classroom.

46 The FOBA course by BA BLOCKS has been a game-changer for me.

66 In this course, I have found exactly what I was looking for.

I knew there was a better way but didn't know how, I knew I still had a lot to learn but didn't know on what I should focus. Now I know thanks to you. What set this course apart is its commitment to bridging the gap between theory

and real-world practice. The case studies presented were diverse, reflecting the multifaceted nature of business analysis across industries.

The practical approach adopted by course ensured that I not only understood the

theoretical concepts but also knew how to apply them in real-world scenarios

The guidance and support from experienced instructors were instrumental in my learning journey, providing valuable feedback and insights every step of the way.

The course instructors were not only knowledgeable but also passionate about imparting their expertise, creating an engaging and supportive learning

66 I personally love how the course simplified complex concepts and challenged you to think in different ways.

Emal and Danielle fostered engagement and collaboration among professionals of all levels, encouraging participants to ask questions and receive support while working on a real-world simulated project.

This collaborative environment enabled participants to grasp the necessary level of detail for various business analyst deliverables, including business processes, use cases, use case scenarios, wireframes, screen specifications, and data

Additionally, this course facilitated better comprehension and a clear flow from

Dean Business Analyst at

IIBA Ireland Chapter

Hindemit

66 This course was unique compared to other BA courses I've taken. Not only was it presented as a project, where each student has an "over the

The course was taught in a clear, concise manner, by the founder of BA Blocks, Emal Bariali and Danielle Robert. The material taught was based on Emal's almost 20 year career experience as a Business Analys If you're looking for an excellent foundational course in Business Analysis.
